BusWorks® XT Series Brochure

DIN-Rail Mount

USB-Configured

Dual Ethernet

Ethernet Analog and Discrete I/O Modules
Experience counts: especially when selecting an I/O partner. And with 50 years of I/O experience, Acromag can help you improve reliability, increase productivity and reduce your costs.

Acromag: The I/O Leader
Acromag is a customer-driven manufacturer focused on developing embedded I/O products that provide the best long term value in the industry. Compare and you’ll find that Acromag products offer an unmatched balance of price, performance, and features.

50 Years of I/O Experience
Acromag has more than 50 years of measurement and control experience. Since 1957, we have delivered nearly a million units to thousands of customers around the globe for manufacturing, power, environmental, transportation, and military applications.

Quality with a 2-Year Warranty
We take every measure to guarantee you dependable operation and products that perform at or beyond the specifications. State-of-the-art manufacturing and military-grade components add an extra degree of ruggedness. Acromag is also certified for ISO9000/AS9100 quality control management procedures.

Online Ordering
For your convenience, Acromag provides full product documentation and pricing information on our website. You can obtain quotes or even place your order directly on our website.

Fast Delivery from Stock
Most products can be shipped within 24 hours of receiving your order.

Special Services
We are happy to accommodate your special requirements and offer the following services:
- Custom product development
- Custom calibration
- Source inspections, quality audits
- Special shipping, documentation
- Protective humiseal coating
- Plastic and stainless steel tagging

Certification and Approvals
Many Acromag products carry globally recognized agency approvals and safety certifications.
- CE
- UL, cUL
- Atex
- Ethernet/IP conformance
- Modbus conformance
- HART conformance
- CSA

All trademarks are the property of their respective owners.

Introduction
The BusWorks XT series is a rugged, flexible line of Ethernet I/O modules that features channel versatility with housing to reliably withstand harsh industrial environments.

Rugged construction, high density design, and convenient USB programming make these instruments ideal for many applications including: remote monitoring, distributed control, and SCADA.

Key Features and Benefits
- Convenient Housing: 22.5mm wide with pluggable, front-facing terminals
- Simple USB Configuration: Free Windows software enables easy setup with a USB-to-PC connection
- Dual Ethernet: Two 10/100Mbps Ethernet ports with auto-negotiation reduce switch port requirements
- Peer-to-peer Ethernet Communication: i2o technology in Modbus units enable module-to-module communication without a controller
- Fully Isolated: I/O, network, and power circuits isolated from each other at 1500V AC for safety and noise immunity
- Redundant Power: Accepts power via terminal block or DIN rail bus connector for simple backup power supplies
- Wide Ambient Temperature Range: Provides reliable operation from -40 to 70°C
- Built Rugged: Shock and vibration resistant, with CE and UL/cUL Class 1 Div 2 Zone 2 approvals and ATEX certification.

Digital I/O
- XT1110 16-ch, sinking
  - Input: 0-32V DC
  - Output: 0-32V DC
  - Up to 250mA
  - See data sheet

Analog Input
- XT1210 8-ch, current
  - Input: 0 to 11mA, 0 to 20mA, 4 to 20mA, ±20mA
  - 0-20A AC
  - See data sheet

- XT1220 8-ch, voltage
  - Input: ±5V, ±10V, 0-5V, 0-10V
  - See data sheet

- XT1230 16-ch, current
  - Input: 0 to 11mA, 0 to 20mA, 4 to 20mA, ±20mA
  - 0-20A AC
  - See data sheet

Multi-function
- XT1530 4-ch, analog current out
  - Analog Output: 0-20mA, 4-20mA
  - Discrete Input/Output: 0-32V DC
  - See data sheet

- XT1540 8-ch, analog voltage out
  - Analog Output: ±5V, ±10V
  - Discrete Input/Output: 0-32V DC
  - See data sheet

Acromag
THE LEADER IN INDUSTRIAL I/O
Key Features

**Time-Critical**
Each module utilizes Innovasic PriorityChannel™ for determinism at the device regardless of the network load.

**Daisy-Chaining**
Dual Ethernet 10/100 ports allow for flexible device cabling to save space and reduce costs.

**Rail Power Bus**
Accepts power through the DIN rail bus connector for easy installation of a redundant backup power supply or for multiple units to share a power source.

**Space Saving**
A 22.5mm wide, rugged enclosure easily achieves high-density DIN-rail mounting.

**Simple Configuration**
Digital setup and calibration with straightforward Windows (XP and newer) software via USB.

**Rugged Design**
Wide ambient temperature operation, shock and vibration-resistant, with CE and UL/cUL Class 1, Division 2, Zone 2 approvals and ATEX certification.
Ethernet I/O: BusWorks® XT Series

Easy Peer-to-Peer Modbus TCP/IP Communication with Acromag i2o®

**i2o Input-to-output Communication**

Acromag’s i2o technology provides the easiest way to link your inputs to your outputs without a PLC, PC or master CPU.

With i2o, many BusWorks XT I/O modules have the ability to operate like a long-distance transmitter. You can convert your sensor inputs at Point A to process control signals at Point B. Or, monitor a discrete device at one site by reproducing the discrete level with a relay output at another location.

**Use your existing Ethernet lines to save time and wiring expenses**

You can connect the input modules to the output modules using your existing copper/fiber infrastructure or with a single new cable. Multiple I/O modules can be multiplexed through a switch or wireless radios.

**No complicated controllers. No software. No programming.**

Acromag’s Ethernet I/O modules have a built-in web page making it simple to configure using your standard web browser. Just click a few menu settings, enter the IP addresses, and you are done. Fast and easy.

**Wire-saving Applications**

Our i2o technology lets an input module speak directly to an output module. It is ideal for non-critical projects that don’t need a PLC or PC master. Reproduce remote signals based on timed or event updates.

- Remote monitoring of process variables (temperature, pressure, level, flow) and discrete devices
- Remote data display, recording, alarms, or control
- Signal splitters
- Analyzer system monitoring
- Power and water utility monitoring
- Tank level, pump, and valve control
- Remote monitoring of motor loads and contactor status
- Remote control switching stations
- Environmental control systems
- Process shutdown, alarming, and annunciator systems
- RFID systems
- Modbus TCP/IP communication only

**Peer-to-Peer Modbus TCP/IP Communication**

**Analog Inputs**

- ±20mA
- 4-20mA
- 0-20A AC
- 0-10V DC
- ±10V DC

**Discrete Inputs**

- 0-32V DC

**Any Ethernet Media**

- Copper, fiber, wireless, or Internet

**Input-to-Output**

Input channel writes to the output channel

(uni-directional or bi-directional communication)

**Analog Outputs**

- 0-20mA
- 4-20mA
- ±10V
- ±5V

**Discrete Outputs**

- 0-32V DC, up to 300mA

### General Operation and Performance Specifications

The following specifications are common to all XT1000 Series transmitter modules.

<table>
<thead>
<tr>
<th>USB Interface</th>
<th>Physical</th>
</tr>
</thead>
<tbody>
<tr>
<td><strong>USB Connector</strong></td>
<td>General-purpose enclosure designed for mounting on 35mm “T-type” DIN rail.</td>
</tr>
<tr>
<td>USB Mini-B type socket, 5-pin</td>
<td>Case Material: Self-extinguishing polyamide, UL94 V-0 rated, color light gray. General-purpose NEMA Type 1 enclosure.</td>
</tr>
<tr>
<td>USB Data Rate</td>
<td>I/O Connectors: Removable plug-in terminal blocks rated for 12A/250V, AWG #26-12, stranded or solid copper wire.</td>
</tr>
<tr>
<td>12Mbps. USB v1.1 and 2.0 compatible</td>
<td>Shipping Weight: 0.22 kg (0.5 pounds) packed</td>
</tr>
</tbody>
</table>

<table>
<thead>
<tr>
<th>Environmental</th>
<th><strong>Dimensions</strong> <em>in millimeters (inches)</em></th>
</tr>
</thead>
<tbody>
<tr>
<td>Operating Temperature</td>
<td>TOP VIEW</td>
</tr>
<tr>
<td>Varies by module, please see datasheet for details</td>
<td>22.5 (0.89)</td>
</tr>
<tr>
<td>Storage Temperature</td>
<td>114.5 (4.51)</td>
</tr>
<tr>
<td>-40 to 85°C (-40 to 185°F)</td>
<td>96.0 (3.79)</td>
</tr>
<tr>
<td>Relative Humidity</td>
<td>BOTTOM VIEW</td>
</tr>
<tr>
<td>5 to 95% non-condensing</td>

Module Configuration

Screen shots of Windows-based configuration software. Using simple pull-down menus and user-input, your module is ready for use in a snap.
Mechanical Output and Solid-State Input Relay Modules

Acromag’s discrete I/O mechanical relay and optocoupler modules pack in 6 isolated channels per unit for a high-density solution in a small, 12.5mm wide package.

Made to work cohesively with Acromag’s BusWorkst XT Ethernet I/O line, they also integrate easily with any discrete I/O products. Each module is designed for ATEX and CE and UL/cUL Class 1 Div 2 standards and built rugged for more demanding conditions.

XTA-120V Solid-State Relay

The optocoupler module XTA-120V monitors on-off and power supply voltage levels to drive open-drain outputs. Each channel senses the status from proximity/limit/toggle switches, push buttons, contacts, and other solid-state logic devices.

- Six High-Level Voltage Inputs: 0-130Vrms or ±130V DC
- Six Logic-Level Outputs:
  - Open-Drain: 1Kohms pull-up to +5.3V DC
  - 0-32V DC max, 150mA sink
- Built-In Hysteresis:
  - Optimized for mains power at 120Vrms

XTA-MRNO Mechanical Relay

Helping to drive high energy loads, the XTA-MRNO mechanical relay output module serves as an interim digital interface to switch high voltage devices at high currents based on digital logic inputs.

- Six Buffered Digital Logic Inputs:
  - 4-32V digital logic
- Six Mechanical Relay Outputs:
  - Relays drive up to 250V AC/30V DC at 5A
- Mechanical Relay Contacts:
  - Normally open, sealed, Form A mechanical relay contacts (SPST-NO)
Accessories

**Configuration Software**
XT Series Configuration
Simple to use, whether you need the full software interface package (includes USB isolator and cables) or just the configuration software itself. Acromag makes it easy to get started.

**Ordering Information**
- XT-SIP
  Software Interface Package, includes: configuration software CD-ROM, USB-Isolator, two USB cables (4001-112, 4001-113), and Ethernet cable (5035-360).
- XT-CONFIG
  Free download of XT Transmitter Configuration Software.

**Mounting Hardware**

**Din-Rail Mounting**
For your convenience, Acromag offers several mounting accessories to simplify your system installation. Our 19" rack-mount kit provides a clean solution for mounting your I/O modules and a power supply. Or you can buy precut DIN rail strips for mounting on any flat surface.

**Ordering Information**
- 20RM-16-DIN
  19” rack-mount kit with DIN rail.
- DIN RAIL 3.0
- DIN RAIL 16.7
  DIN rail strip, Type T, 3 inches (75mm) or 16.7 inches (425mm)

**Power Supplies**

**Universal Slimline Power Supplies**
Input Power Requirement
85 to 264V AC or 105 to 370V DC
Output
5V DC, 12V DC, or 24V DC
10W to 240W

**Ordering Information**
- PSSR-SD24
  Power supply, 60W, 2.5A at 24V DC
  Visit [www.acromag.com](http://www.acromag.com) for additional models and more information.

**USB Isolator and Cables**

**USB-to-USB Isolator**
This compact, industrial-grade isolator provides a high-voltage isolation barrier between a computer and a connected USB device, protecting equipment from electrical surges, transient voltage spikes, and ground loop currents.

**Ordering Information**
- USB-Isolator
  USB isolator, includes USB cable (Part # 4001-112) for isolator-to-PC connection

**USB Cables**

Cables for both PC-to-USB isolator and USB isolator-to-transmitter connections.

**Ordering Information**
- 4001-112
  USB Cable, Type A to Type B, 1 meter
- 4001-113
  USB Cable, Type A to Mini-B, 1 meter
