The following statement regarding conformity of our products to the EU Directive 2011/65/EU (RoHS2) and EU Directive 2015/863 (RoHS3) is based on our actual research and inquiries with our suppliers:

Acromag is moving towards 100% usage of lead-free soldering metals unless specific customers or technical requirements need lead-containing soldering materials.

Acromag can also upon customers request provide products to use lead-free soldering metals.

The RoHS status of many of our products are listed on data sheets, in catalogues, or in our product data base (see www.acromag.com).

Attached is a list of Series Models that are Non-RoHS Compliant.
